12-24-11 fdl county sheriff's department law of the month

December marks the eighth anniversary of the enactment of a Wisconsin law that prohibits drivers from having any detectable amount of a controlled substance in their system, such as marijuana or cocaine, while operating a motor vehicle. The law also makes the legal penalties for drugged driving the same as drunken driving. (Wis. Stats. 346.63(1a)) The Fond du Lac County Sheriff's Office and other law enforcement agencies are continuing their efforts to combat drugged driving. Law enforcement officers throughout the state have extensive training and experience in procedures that effectively identify drivers impaired by alcohol. Officers use many of those same procedures to identify drugged drivers. Drivers who exhibit behavior or symptoms indicative of drug use must submit to a blood test that determines the presence of drugs. Refusing to submit to the blood test means an automatic revocation of the driver's license. In addition to illegal drugs, the overuse or abuse of medications, especially when combined with alcohol, will often cause impaired driving. State law prohibits drivers from being "under the influence of any

drug to a degree which renders him or her incapable of safely driving or under the combined influence of an intoxicant and any other drug to a degree which renders him or her incapable of driving safely. Drivers under the influence of drugs, alcohol, or a combination of the two are deadly threats to everyone on the road. That's why officers never take a break—even over the holiday season—from arresting those who choose to get behind the wheel while impaired.

Have a Safe Holiday Season,

Sheriff Mck Fink

12-24-11 fdl police department law of the month

Inattentive driving is one of the leading causes of automobile crashes. Basically inattentive driving means a driver is driving distracted. We have all seen distracted drivers. People driving while talking on a cell phone, texting, reading a book, putting make up on, drinking coffee, etc. When we see these distracted drivers we immediately realize the dangers they impose. The Wisconsin State Statute for Inattentive Driving (SS 346.89) reads, "No person while driving a motor vehicle shall be so engaged or occupied as to interfere with the safe driving of such vehicle." This definition does not list one thing or a group of things that are illegal to engage in while driving because the list of distractions that can cause one to drive inattentively is endless. A citation for inattentive driving can cost you from \$101.40 to \$178.40 and 4 points on your driving record. Obeying this law is especially important for drivers now that the winter months have arrived. When road conditions become poor, it is important that drivers are able to fully concentrate on the roadway. Treacherous road conditions, plus added distractions are a recipe for a devastating crash. With the numerous electronic devices available in today's society, we all must refrain from using them while driving to help ensure that the City of Fond du Lac remains a safe place to live, learn, work and play!
